Zeeshan Haider

React Js Developer | Frontend Developer

I am a dedicated and passionate **React JS Developer** who has completed the **MERN Stack Development course** from **Saylani (SMIT)** . With a strong understanding of **web development** , I specialize in building modern, dynamic, and responsive applications using **React JS** . I am proficient in using state management tools like **Redux** and **Context API** to optimize app performance. My goal is to continually learn and apply new techniques to create high-quality web applications, deliver exceptional **user experiences** , and enhance my skills in **MERN Stack Development** .
